

HYZERO™

Hydrogen Fuel Cell Solutions for a Clean Tomorrow

www.hyzero.com

Empowering a greener future with Hydrogen Fuel Cell Technology

HyZero solution represents the pinnacle of clean energy technology. At HyZero, we are dedicated to revolutionizing the way we power our world by providing cutting-edge hydrogen fuel cell systems, coupled with innovative cartridges and refilling stations.

Our mission is to accelerate the transition to a cleaner and greener future by harnessing the power of hydrogen, a limitless and eco-friendly energy source, and reduce air pollution while improving the air quality. Our commitment to innovation and environmental responsibility drives us to provide cutting-edge solutions that redefine energy consumption.

At HyZero, we envision a world where renewable energy powers our lives, reduces carbon emissions, and creates a greener planet for generations to come.

Key advantages of HyZero solution

Safe
Low pressure

Zero
emission

Low
maintenance

Quick
refuelling

Fuel & cost
efficient

The HyZero technology is focussed on 1-10 kW power range which is ideal for small mobility vehicles and stationary power generator. This compact, lightweight solution is designed specifically for vehicles which require lower power and places having requirement for critical power such as backup power generator, cellphone tower, ATM machine, etc.

Our unique hydrogen delivery system sets us apart. The low pressured (150psi), swappable and refillable cartridges provides safe, fast and cost efficient power delivery system.

Our state of the art refilling stations are a cornerstone of our commitment to sustainability. These refilling stations offers rapid refilling of cartridges and allows easy swap & go feature.

Last Mile Applications

3-wheeler cargo and passenger vehicles

2 wheeler Motor Scooters

4 wheeler/golf cart

Stationary power solution for off grid, critical power requirements

Easy and Quick Refilling

Swap and Go Hydrogen Cartridge

- Low pressure
- Refillable
- Hold 45gms of hydrogen

Cartridge Refilling station

- 2 hours to refill
- Cartridges swapped within a minute
- Customizable capacity
